

Miguel Pagan Fernandez

Bio/Cv:

Miguel Pagan was the Head of Global Technical Operations for Novartis (Solids and Special Technologies) and a member of the Sandoz Executive Committee acting as Global Head of Technical Operations Sandoz. He had overall responsibility for Global Solids and Special Technologies Network (Manufacturing and Supply) at Novartis which encompasses thirty-five (35) manufacturing operations plants across the world.

He was appointed Head of Global Technical Operations Sandoz with enterprise responsibility (Manufacturing & Supply) in 2015.

Miguel was previously the Vice President of Americas and Consumer Care Operations at Merck & Co (MSD). He had overall responsibility for leading manufacturing operations plants in North America, Canada, Latin America, and Puerto Rico. His previous positions included the Vice President of North America; Associate Vice President, Pharmaceutical Operations, Puerto Rico; General Manager of Las Piedras, Puerto Rico.

Mr. Pagan previously managed the Schering-Plough plant in Madrid, Spain where he joined in 2001 as quality head and technical director. Prior to that, he held several positions in Pharmaceutical and Analytical Development, and Manufacturing for Small Molecules, Large Molecules and Vaccines.

Miguel is a leader with strong cross cultural experience, who recognizes that people are the platform upon which everything is built. He has a proven track record of transforming organizations and improving performance while keeping an engaged and committed team.

He holds a Bachelor's and Doctorate Courses in Pharmacy from Complutense University, Madrid; Master's in Industrial Pharmacy from Education Ministry of Spain; Master's in Project Management from Commerce Association of Madrid; and Business Programs at Harvard BS and Wharton University PA.
